Aftab Divan

Jr. React Js Developer

Mehsana, Gujarat, India

Summary

I'm living the dream.

I've always been a great problem solver, an independent introvert, and a technophile obsessed with the latest devices.

I started learning to code when I was a teenager, though it was always more of a hobby than a career focus.

I'm familiar with a variety of programming languages, including JavaScript, React js, HTML, CSS, Python, C++, PHP, .Net, jQuery, and Java, but I'm always adding new skills to my repertoire. I'm also eager to meet other software engineers in the area, so feel free to connect!
